Plug in your STEREO 1/4inch cable and convert it to a 3.5mm (1/8inch) connector. Suitable to adapter an audio device, such as headphones, to a different connector size. Check your existing 1/4inch (6.35mm) male connector to ensure it has 2 "black bands" on the connector end. If YES, then it is a TRS (stereo) connector. If it has only ONE it is a MONO (TS) connector, or if THREE is a TRRS connector and NOT suitable for this adapter. This adapter is also NOT suitable for connecting or adapting devices that also have a MICROPHONE connector. These are typically 3 black bands (TRRS) connectors.

Specifications:

- 1/4 inch TRS (Stereo) FEMALE connector
- 3.5mm (1/8inch) TRS (Stereo) MALE connector
- Nickel Plated
