Wall plate for use in conjunction with gang box and keystone-type connections. Use appropriate keystones to create a nicely finished, professionally installed look for ethernet networks or Home Theater interconnects. Eliminate that cluster of wires and hid them behind a wall. Wall-plate has a SINGLE keystone insert hole.

Keystone connections available: Ethernet (Cat5/6), Phone (RJ11), Coax (RG-6), RCA/Component Video, RCA/Audio, RCA/Digital Audio, S-Video, Speaker (Banana Plugs), and BNC.

NOTE: Our IVORY wall-plates and inserts are manufactured from multiple different factories, and thus the die-lot color of IVORY may be different from product to product.
