Extends an EXISTING HDMI Cable to connect any Blu-Ray player, Satellite Box, Cable Box, DVD Player, or ANY device accepting the standard HDMI connector. All our HDMI cables are manufactured to specific HDMI LLC standards and have passed stringent ATC testing requirements (see our certificates below).

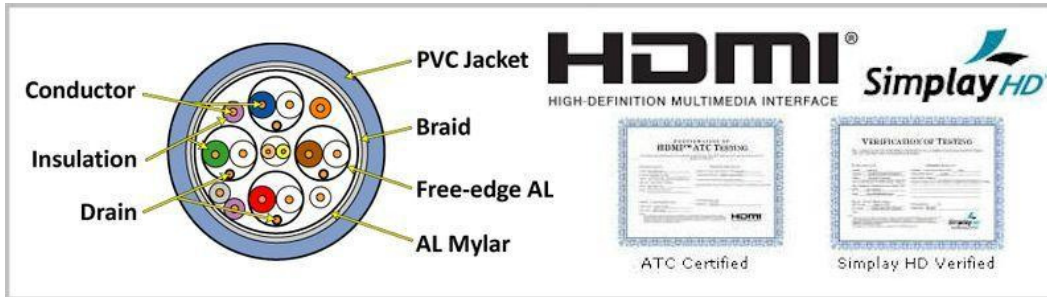

**Supports the following features that are included in the HDMI Version 1.4A Specification:**

- **4K x 2K Support** - Supports ANY resolution to 4K (4096x2160)
- **HDMI Ethernet Channel** - Delivers Ethernet data interconnectivity to compatible devices through the HDMI port so you don't need extra cables to get extended features
- **Audio Return Channel (ARC)** - Allows the HDMI connection between a television and A/V receiver to transmit audio two ways, both upstream and downstream. This eliminates the need for a separate audio cable ensuring the high digital audio quality of HDMI
- **Full 3D Support** - If your source and receiving device support 3D, this cable will!
- Support for ANY TV refresh rates (such as 120Hz/240/480/600Hz) Click [HERE](#) for an explanation of refresh rate technology
