Connect any device accepting the standard HDMI connector. All our HDMI cables are manufactured to specific HDMI LLC standards and have passed stringent HDMI ATC testing requirements. We believe our ELITE series HDMI cables to be the BEST POSSIBLE CABLES manufactured by ANYONE. Compare these specifications to ANY high-end cables (such as Audioquest and Monster), but pay much less!

These ULTRA HIGH SPEED cables are ideal when used in combination with switches, splitters, wall-plates, as a partial HDMI segment when connecting devices to a receiver - and then from the receiver to your HDTV - when there is a need to minimize any resistance, and are an ideal solution for 4Kx2K devices

Supports the following features that are included in the HDMI Version 2.0 specification:

- **4K x 2K Support** - Supports ANY resolution to 4K (4096x2160) at 60Hz (including 4:4:4 Chroma Subsampling)
- Maximum possible bandwidth: 18Gbps
- Patented locking HDMI connectors to ensure your connections remain tight into your equipment
- **HDMI Ethernet Channel**- (HEC) Delivers Ethernet data interconnectivity to compatible devices through the HDMI port so you don't need extra cables to get extended features
- **Audio Return Channel**-(ARC) Allows the HDMI connection between a television and A/V receiver to transmit audio two ways, both upstream and downstream. This eliminates the need for a separate audio cable and ensures you maintain the high digital audio quality of HDMI
- **Full 3D Support**- If your source and receiving device support 3D, this cable will!
- Support for ANY TV refresh rates (such as 120Hz/240/480/600Hz), HDCP 1.2 and 2.2 Support

Cable Specifications:

- Polished steel molded connector ends provides for DOUBLE protection for EMS interference and added connector strength
- **Spectra 7's IC8181 chipset installed at display**
- **Wire Gauge: 26 AWG**
- Locking HDMI connectors make sure your cables stay in their connector ports
- End Connector Dimension: 20.1mm W x 10.7mm H, Cable Thickness: 7.5mm
- Attractive Woven Net Jacket provides extra layer of protection, and allows for easy in-wall installation
- CL-2 (Class 2) rated for in-wall installation
- Gold Plated 1u (All 19 wires and Ground Shroud)
- Silver-plated (20u) 1.3% PURE copper wire for maximum conductivity WITHOUT any harmful lead (RoHS)
- 19 pin, Male to Male, Type A Connector

- *Triple Shielded, EMI (Foil, braid, foil)*
- *No bulky ferrites cores*
- *UL / CSA listed (UL File #: E119932, Style: 20276), Max Temperature: 80 C*
