EXTENDS the length of any USB cable with Type A connector. It works with Type A/A or A/B cables. It is USB 2.0 certified and supports USB speed up to 480Mbps. If total length exceeds 16ft, a active repeater may be required.

When comparing our cables to our competitors, please note the WIRE THICKNESS of **28AWG (1P) + 24AWG*2C**. Most of our competitors use **28/28AWG** cables resulting in signal loss, slower charging times, and overall amperage loss.

Cable Specifications:
