

## 4-way AV RCA Audio Video Switcher

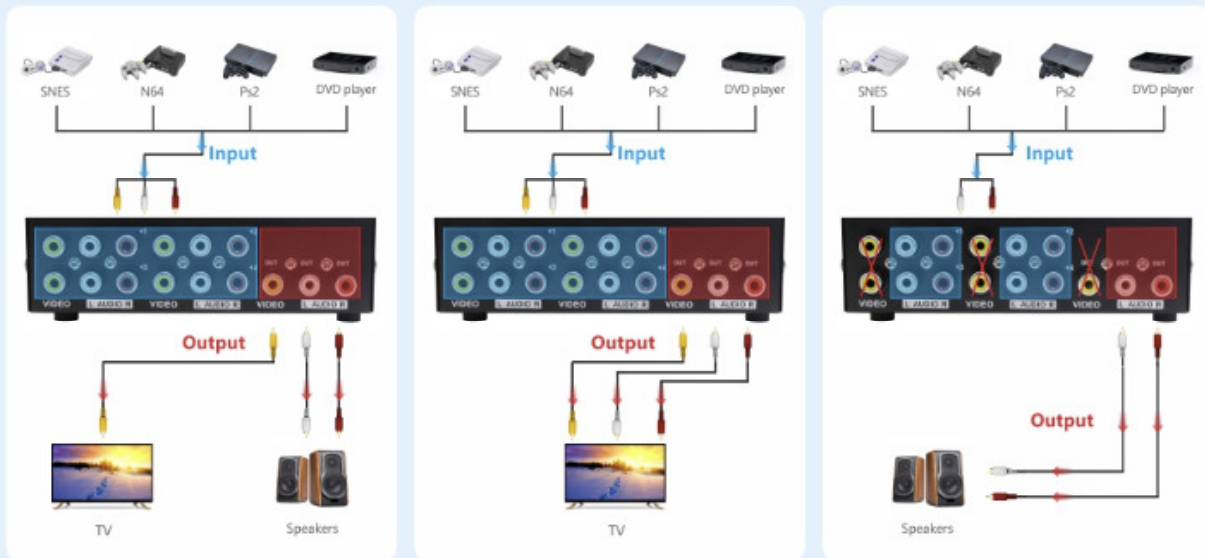

Panlong 4 In 1 Out RCA switch box lets you connect four composite video and stereo audio sources that have yellow-white-red RCA connectors, such as Wii, XBOX, DVD, PS2, Nintendo, etc. Simply push the button, you can switch back and forth between them without un-plugging/re-plugging cables.

The series of Panlong RCA switcher has no crosstalk, no noticeable loss in video or audio quality. It is a must for every retro enthusiast.

### Easily switch the input signal without the need to disconnect and re-connect your AV devices.

Connect multiple video devices with AV out to one set of standard yellow-white-red RCA connectors of your TV.
